PREFACE

P.1 These NASA Records Retention Schedules (NRRS) set forth the retention periods of Federal records created, received and/or maintained by National Aeronautics and Space Administration (NASA) employees and contractors. They were formerly included in NPR 1441.1 from which they have been extracted since they are approved by the National Archives and Records Administration (NARA) and not by NASA.

P.2 This document is called forth in NPR 1441.1, NASA Records Management Program Requirements, for mandatory use in the maintenance and disposition of NASA records, in compliance with 36 CFR Chapter 1220.34.

P.3 This revised edition correlates schedule items with the Agency Filing Scheme (AFS) found as an appendix in NPR 1441.1. The AFS is the NASA subject numbering scheme for filing and records tagging. The NRRS also incorporates some of the General Records Schedules (GRS) produced by NARA as well as NASA's Privacy Act Systems of Records.

P.4 The process for creating new retention schedules and making changes to the NRRS is provided in NPR 1441.1.

Introduction

I.1 NASA RECORDS RETENTION SCHEDULES ORGANIZATION AND FORMAT

a. The NASA Records Retention Schedules (NRRS) are divided into the following 9 subject categories, which are correlated to the Agency Filing Scheme (AFS).

- Organization and Administrative
- Legal and Technical
- Human Resources - Personnel
- Property and Supply
- Industrial Relations and Procurement
- Transportation
- Program Formulation
- Program Management
- Financial Management and Inspector General

b. Schedule 1, "Organization and Administrative Records," will be used by nearly all offices. Schedules 2 through 9 will be used according to office function/operation.

c. The schedules are arranged into six columns:

ITEM	This column includes the reference number given to the series of records descriptions in the third column. The format of the citation is formatted that the schedule number is included before the "/" and the item/sub-item follows. These numbers are a key identifier for records and are used when completing organizational records inventories or file plans, sending records to storage, or adding metadata to electronic records.
NAME	Name indicates the title heading of the records series in the description column.
DESCRIPTION	Description provides descriptions of each category and series of records. The Office of Primary Responsibility (OPR) is also indicated along with specific center instructions, if necessary.

RETENTION

Retention indicates the required period of time the records are required to be maintained by NASA whether onsite or in inactive storage. “<Authority>” provides the NARA Job Number that approved the disposition and retention for the Records Series described.
Some records series map to a NARA General Records Schedule (GRS). In those cases, the GRS citation is included in this column. It should be noted that neither the NARA Job Number nor the GRS citation are included as part of the NRRS schedule/item citation.

PUBLIC NOTES

Public notes includes any explanatory notes to help further interpret the schedules or note any restrictions on applicability.

CONTENT TYPES/
DESCRIPTION
CONTINUED

Content Types/Description continued is a field where different record series can be “tagged” with information about records most commonly associated with that retention schedule item in order to facilitate better natural language keyword searches. This can include form numbers, database names, or “commonly used” titles. Inclusion of content type keywords must be approved by Records Management staff for inclusion. This field also includes additional information from the “Description” column if the length of the description could not fit within the allowable character count of that field.

Schedule 1: Organization and Administrative Records

These schedules cover records pertaining to a variety of general administrative, operational, and support functions. Broad categories include organizational structure and management, general administrative office files, public engagement and communications, information governance, protective services, occupational health and safety, and ethics. They include retention schedules from the National Archives General Records Schedules as well as NASA-specific retention authorities. All schedules with a temporary retention are considered media neutral, meaning they apply to both physical and electronic records. Consult NASA Records Management staff when dealing with records designated as permanent or for clarification in interpretation or application of these retention schedules.

Schedule 2: Legal and Technical Records

These schedules cover records pertaining to records of the Office of General Counsel, technology transfer and utilization, Scientific and Technical Information management, export control, imagery, and information technology management and operations. They include retention schedules from the National Archives General Records Schedules as well as NASA-specific retention authorities. All schedules with a temporary retention are considered media neutral, meaning they apply to both physical and electronic records. Consult NASA Records Management staff when dealing with records designated as permanent or for clarification in interpretation or application of these retention schedules.

Schedule 3: Human Resources (Personnel) Records

These schedules cover records pertaining to functions of management of civil servant human capital. They include retention schedules from the National Archives General Records Schedules as well as NASA-specific retention authorities. These schedules have been written to reflect requirements outlined in the Office of Personnel Management’s “Guide to Personnel Recordkeeping”. In the event of a conflict between that document and these schedules, OPM guidance takes precedence. All schedules with a temporary retention are considered media neutral, meaning they apply to both physical and electronic records. Consult NASA Records Management staff when dealing with records designated as permanent or for clarification in interpretation or application of these retention schedules.

such that some knowledge about them will always be of value.

Note 3: Retention period under any of these items may be lengthened to comply with state or local statutes and regulations.

Note 4: For facilities projects and programs, the close of the project or program occurs at the transfer or disposal of the facility. For missions and flight programs and projects, the close of the program or project occurs when the activity no longer has the potential for measurable environmental effect on the Earth or its atmosphere. For incidents (primarily remediation activities), the close of the incident occurs when active remediation and any required monitoring have been completed and final approvals from regulators have been obtained.

Schedule 9: Financial Management and Inspector General Records

These schedules cover records pertaining to budget execution, accounting, NASA exchange, and inspector general. They include retention schedules from the National Archives General Records Schedules as well as NASA-specific retention authorities. All schedules with a temporary retention are considered media neutral, meaning they apply to both physical and electronic records. Consult NASA Records Management staff when dealing with records designated as permanent or for clarification in interpretation or application of these retention schedules.

09/001.0.A	FINANCIAL TRANSACTION RECORDS	<p>A. Many records included in this item are maintained by accountable officers to account for the availability and status of public funds, and are retained to enable GAO, Office of Inspector General, or other authority audit.</p> <p>Financial transaction records include those created in the course of collecting debts and accounting for all finance activity, per the following definitions.</p> <p>Collecting debts includes the collection of income from all sources (excluding taxation). Collections records document collection of monies from all sources excluding administrative claims, taxation (not covered under the GRS), and Congressional appropriation, such as:</p> <ul style="list-style-type: none"> • records documenting administration, receipt, and deposit of user fees for entry into and/or use of public facilities; for recovering costs of providing government services; and receipt of donations, bequests, and other collections from the public, including: <ul style="list-style-type: none"> o cash register transaction records o credit card and charge cards receipts o records documenting deposits 	<p>Temporary.
