Reply to Attn of:

Office of Strategic Infrastructure

TO: Deputy Associate Administrator for Mission Support Directorate

FROM: Assistant Administrator for Strategic Infrastructure

SUBJECT: Waiver from NPR 1400.1D requirement for NPR 7900.3 Revisions

Ref: NASA Regulations Waiver (NRW) 1400-23

This serves as an addendum to the above reference, which was a waiver approved by the former Office of Internal Controls and Management Systems on August 2, 2010. Specifically, the waiver allowed more than one "shall" statement to be used per paragraph and approved an alternate solution of implementing a requirements compliance matrix. The matrix enables implementing Centers to easily attribute what the requirements are and who is responsible for ensuring compliance. The update to this NPR continues to require uniquely formatted requirements in the form of a compliance matrix. We request that the waiver be extended to NPR 7900.3D, Aircraft Operations Management, and all future revisions. This waiver and the compliance matrix ensures that the directive addresses regulatory requirements in a manner that is beneficial to both reviewers and operators.

If you have any questions, please contact Norman Schweizer on 202-358-1134. We appreciate your organization's support as we work to improve the Office of Strategic and Infrastructure directives.

Calvin Williams

Addendum approved: 02/09/2017

Package due: 02/10/2017
