Reply to Attn of:

Office of Safety and Mission Assurance

TO: Deputy Associate Administrator for Mission Support Directorate

FROM: Deputy Chief, Safety and Mission Assurance

SUBJECT: Addendum to NRW 8705-5, Documenting Technical Requirements in NPR
8705.2B, Human Rating Requirements for Space Systems

This serves as an addendum to the subject waiver approved by the former Office of Internal Controls and Management Systems on December 12, 2007. Specifically, the waiver allowed technical requirements to be documented in NPR 8702.2B. Since this directive continues to require descriptions of technical requirements, this waiver extends to NPR 8705.2C and all future revisions of this directive as these technical requirements will always be maintained in this directive.

We appreciate your organization's support as we work to improve the Safety and Mission Assurance directives.

Harold M. Bell
