Reply to Attn of: Office of the Chief Engineer

TO: Deputy Associate Administrator for Mission Support Directorate
FROM: NASA Chief Engineer
SUBJECT: Requirement Waiver for NPD 7120.4E, NASA Engineering and Program/Project Management Policy Signature Package

The Office of the Chief Engineer (OCE) requests a waiver to allow a 6-month extension of the April 24, 2017, signature package due date for NPD 7120.4E, NASA Policy Directive for Engineering and Program/Project Management. During final routing, the Office of General Counsel referred the signature package back to the Space Technology Mission Directorate (STMD). OCE management is actively working with the STMD to resolve policy issues related to software responsibilities.

Due to the above, additional time is needed to coordinate and reconcile comments resulting from resolution of the issues as well as time for the routing and review process.

We appreciate your organization's support as we work to improve the OCE's directives.

A handwritten signature in black ink, appearing to read "R. R. Roe, Jr." with a stylized flourish at the end.

Ralph R. Roe, Jr.
