NRW 1400-85

Reply to Attn of:

Office of Strategic Infrastructure

TO: Deputy Associate Administrator for Mission Support

FROM: Assistant Administrator for Strategic Infrastructure

SUBJECT: Request for NASA Procedural Requirement (NPR) 1400.1G,
Section 1.2.6 Waiver for NASA Procedural Directive (NPD) 8600.D10
and NPR 8600.D10

The Office of Strategic Infrastructure (OSI) is requesting a formal waiver from the requirement of NPR 1400.1D, Section 1.2.6, which delineates that policy documents are to be coordinated through the NASA Online Directive Information System (NODIS) in accordance with the established monthly schedule. Both the NPD and NPR cited above are new policies that make fundamental changes to how technical capabilities across NASA are managed. As such, both policies have received non-concurs during the review process and an additional 7 months is needed to resolve those issues. Both policies are essential in establishing the new governance model for technical capabilities and are Agency priorities.

Should you have any questions or need further explanation regarding this request, please contact Fatima Johnson, Directives Manager for OSI at 202-358-1631.

A handwritten signature in blue ink that reads "Calvin F. Williams".
