Effective Date: March 2, 2019

Reply to Attn of: **Office of the Chief Information Officer**

TO: Deputy Associate Administrator for Mission Support Directorate
FROM: NASA Chief Information Officer
SUBJECT: Waiver Request for NASA of Expiration Date for NASA Policy Directive (NPD) 2800.1D, Managing Information Technology

The Office of the Chief Information Officer (OCIO) requests a waiver from the NPR 1400.1 90 day directives coordination cycle requirement for review and concurrence for NPD 2800.1D. This waiver will ensure that OCIO can properly address concerns brought forward by the Office of the Chief Engineer (OCE) during the concurrence process. OCIO is working to address these issues as quickly as possible. The signature package is currently due on March 1, 2019, we request an extension to August 30, 2019.

During the NODIS review for this directive we received a number of comments from OCE that require additional time, collaboration, and inputs before they can be fully dispositioned. We have been working closely with OCE to address these issues, however we need additional time to resolve the comments.

Thank you for your consideration of this request. Please contact Ellen Walsh at 202-358-0582 if you have any questions

Thank you.

A handwritten signature in blue ink that reads "Renee P. Wynn".

Renee P. Wynn

New Suspense Date: August 30, 2019

Approval:

A handwritten signature in blue ink that reads "Vernon Smith".

Vernon Smith
